

“Assessment of the Restorative patient - Part 3: Treatment Options, Treatment Planning & Plan of Treatment”

Venue:

Graystone Referral Centre, Hassocks, Sussex

Date: Wednesday 25th June 2025

Time:

Registration & Refreshments: 1830

Lecture: 1900 – 2100

AJ Ray-Chaudhuri

**Consultant in Restorative
& Implant Dentistry**

Aim:

To improve your ability to recognise Treatment Options, create a Treatment plan, and then a Plan of Treatment for Restorative dental care

Learning objectives for part 3:

- a) To improve your knowledge of the key aspects of treatment options for Restorative patients including salvaging and replacing teeth
- b) To consider the importance of a thorough Treatment plan for short, medium and long-term care
- c) To discuss the complexity of creating a Plan of treatment

Please contact Dental Tubules to join the “Brighton Study Club” and register your place for this lecture.
